

High-Efficiency Gas Commercial Kitchen Equipment Rebates for Business

Save energy with high-efficiency gas commercial kitchen equipment.

Save energy with high-efficiency equipment. Rebates are provided to reduce the cost difference between standard efficiency and high-efficiency equipment.

\$1,000 REBATE PER UNIT

nationalgrid

The power of action.™

This rebate is provided to cover a portion of the cost for installing high-efficiency natural gas equipment versus standard efficiency equipment.

- A list of eligible equipment is available online at www.thinksmarthinkgreen.com/kitchen.
- Large vat fryers greater than 14" that have a tested heavy-load french fry cooking energy efficiency of 50% utilizing ASTM Standard F2144 also qualify for this \$1,000 rebate. A listing of qualifying models is available online at www.thinksmarthinkgreen.com/kitchen.

A licensed contractor specializing in the installation of food service equipment can install high-efficiency equipment.

Save Energy and Money with Commercial Kitchen Equipment

According to The Food Service Technology Center, as much as 80 percent of the \$10 billion annual energy bill for the commercial food service sector does no useful work. These lost energy dollars are often wasted in the form of excess heat and noise generated by inefficient appliances; heating, ventilation and air conditioning systems; lighting and refrigeration. To help counter these costs, National Grid helps restaurant owners and operators improve the performance of their facilities and equipment while reducing energy costs. Restaurants that invest strategically can cut costs 10 to 30 percent without sacrificing service, quality, style or comfort — while making significant contributions to a cleaner environment.

High-efficiency equipment can be an answer to mounting energy bills. Whether constructing a new kitchen or replacing aging equipment, purchasing high-efficiency commercial food service equipment can save significant amounts of money and energy on food service operators' gas, water and sewer bills.

National Grid offers \$1,000 rebates for qualifying commercial steamers, fryers and convection ovens. To review qualifying equipment models, visit www.thinksmarthinkgreen.com/kitchen.

High-Efficiency Gas Commercial Kitchen Equipment Rebate Application

Follow these steps to participate:

1) Complete and sign this application.

2) Mail this form and COPIES OF DATED RECEIPTS OR INVOICES documenting the purchase and installation of the equipment to: **National Grid Efficiency**, 40 Washington Street, Suite 2000, Westborough, MA 01581.

For questions regarding this program, please call 1-800-843-3636 or e-mail save@us.ngrid.com.

More than five units require pre-approval.

Please review terms and conditions. Form must be completed entirely to be processed.

I hereby request a rebate for the above listed work. Attached are copies of all receipts. I have read and agree to the Terms and Conditions on the reverse of this form. I certify that a licensed contractor has installed the above high-efficiency fryer in accordance with Program Guidelines and Terms and Conditions as described on the reverse.

Customer Signature: _____ **Date:** _____

National Grid Commercial Energy Efficiency Programs Terms & Conditions

- 1. Program Rebates** - Subject to these Terms & Conditions, National Grid ("the Company"), through its contractual vendor, will pay rebates to eligible National Grid Customers for the installation of specific Energy Efficiency Improvements ("EELs") described in the application.
- 2. Customer Eligibility** - National Grid customers are eligible for Prescriptive rebates if they are firm tariff gas customers on qualifying commercial rate code and they are directly responsible for the payment of the National Grid energy bills for the facility in which they do business. EEI installations must be completed between 1/1/2009 and 11/30/2009. Applications must be received by 12/31/2009. Check www.thinksmarthinkgreen.com frequently for program updates or installation extensions.
- 3. Energy Efficiency Improvements (EELs)** - (a) The Company will only pay rebates for the specific EELs listed on the front of the Application. There will be no rebate payments for substitute EELs unless the substitute is approved by the Company in writing and in advance of installation. (b) All EEI installations must be installed in conformance with state and local code requirements and by properly licensed contractors. All projects requiring 10 or more units must be pre-approved by National Grid.
- 4. Post-Installation Work Verification** - The Company reserves the right to not pay any rebate until it has performed a verification of the specified installation. If the Company determines that the EELs were not installed in a manner that is consistent with Program guidelines and applicable state and local code requirements, the Company may require that the installation be modified before making any rebate payments. The cost of such modifications is the responsibility of the Customer.
- 5. Rebate Amounts** - The Company will provide rebates for approved equipment, equal to the rebate amount indicated in the program literature and within this Application. The Company reserves the right to change its rebate amounts without notice in addition to negotiating a lower rebate amount on a per-unit basis in the case of multiple installations at the same site. The rebate may not exceed the installed cost of the EELs. The Company will not provide rebates of more than 50% of the cost of equipment and installation and will limit the rebate amounts at \$100,000 per project.
- 6. Proof-of-Cost of Installation** - The Customer must submit copies of all itemized invoices documenting the installation (including all materials, labor and equipment invoices), which reflect the actual cost of purchasing and installing the equipment. In addition, the Company may request any other reasonable documentation or verification of the date of installation or the cost to the Customer of purchasing and installing the equipment. The documentation shall be provided with the submission of this application.
- 7. Indemnification** - Customer shall defend, indemnify and hold harmless the Company and its officers, directors, employees, agents, servants and assigns from and against any and all losses, claims, demands and/or liability for damage to property, injury or death of any person, or any other liability incurred by the Company, including all expenses, legal or otherwise, arising out of or related to the equipment or installation, except to the extent attributable to the negligence of Company. In no event shall Company's liability to Customer exceed the incentive amounts.
- 8. Payment** - The Company, through the Vendor, expects to make incentive payments to eligible customers within 45 days of a satisfactory work verification. The customer must refund any incentive made to the extent the contractor or equipment does not satisfy program requirements.
- 9. Installation Service Cost** - The Company will recognize material and installation costs only to the extent that they are reasonable and actually incurred by the Customer and fall within the guidelines of the Program.
- 10. No Warranties** - The Company and the Vendor does not endorse, guarantee or warrant any particular contractor, manufacturer or product installation. The Company and the Vendor do not make any representation of any kind regarding the results to be achieved by the equipment or the adequacy or safety of such equipment.
- 11. Limited Scope Review** - The scope of review by the Company and the Vendor and their inspector of the installation of the equipment is limited solely to determine whether rebates are payable. It does not include any kind of safety or code review, and should not be relied upon as one.
- 12. Changes in the Energy Savings Program** - The Program and these Terms & Conditions may be changed by the Company at any time without notice.
- 13. Payments Assignable to a Third Party** - (a) The Customer may request that the Company's Energy Efficiency Program rebate be paid directly to a third party by so indicating in this application. Notification of third-party payment will be sent to customer upon submission of application. (b) If no payment choice is made, the Company will send the payment to the Customer directly at the address indicated in this Application.
- 14. No Tax Liability to the Company** - The Company is not responsible for any tax liability which may be imposed as a result of receipt of the rebate by the Customer.
- 15. Contractor Insurance** - The Company is not responsible for any damage that may be caused as a result of an installation of any equipment. It is the responsibility of the customer to select qualified Contractors who carry adequate insurance coverage.

National Grid is one of the largest investor-owned energy companies in the world. In the US, we serve nearly 5 million electric and 3.4 million gas customers in Massachusetts, New Hampshire, New York and Rhode Island. Save energy and money with our award-winning efficiency programs. **Visit www.thinksmarthinkgreen.com.**
